

VERTICAL EXPRESS

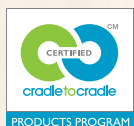

FINISHES GUIDE

First impressions last, so we give you choices.

Whether the goal is making a strong first impression or simply beautifying your elevator system, Vertical Express offers a complete line of elevator interiors to choose from. You can pick the color and finish of your choice to create appealing designs. By personalizing your elevators, you can stay true to the building's aesthetics.

Beyond simply creating attractive interiors, our products feature environmentally conscious options that support your efforts to "go green." Vertical Express offers elevator interiors that are free from wood products containing urea formaldehyde, utilize powder coating instead of solvent-based paint and are third-party validated as low-emitting by Underwriters Laboratories (UL). We are the only elevator company that can say this.

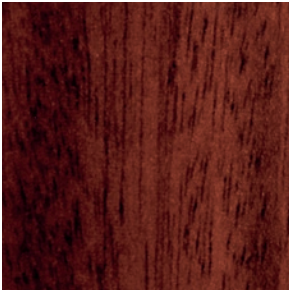

PLASTIC LAMINATES

Pictured: Zebrano (9011)

Our designer-selected laminate line includes wood, solid and pattern finishes. All laminates are added urea-formaldehyde free.

POWDER COATS

Pictured: Blue Patina (F-130)

Our designer-selected powder coat collection comes in a variety of colors but can also be customized to match even the most adventurous palettes. Powder coat is a durable and scratch-resistant yet environmentally preferable alternative to traditional solvent-based paint. It is free from Volatile Organic Compounds (VOCs) and creates less waste than standard paint applications. It can be easily recycled and requires less energy to cure. It also offers superior wear, provides protection from UV fading and has an expected lifetime in excess of 10 years.

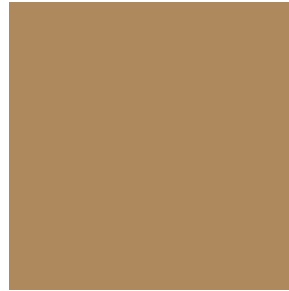

Solids

Prairie Grass
